TECHNICAL SKILLS
Strong
- JavaScript (ES5/ES6), PHP, HTML5, CSS3, GitHub, jQuery, MySQL, Data Integrations (AJAX) and APIs, JSON, CSS-Flexbox, Object Oriented Programming (OOP)

Experienced
- Node.js, ReactJS, Redux, Git, Bootstrap3, Amazon EC2, Ubuntu, Apache, Agile Methodology, AXIOS calls, Firebase, User Interface (UI), User Experience (UX)

PROJECTS
Peaky Finder (Live | Code)
- App designed to allow mountain climbers and hikers the ability to plan out their day trips by localizing and locating all suitable climbing regions in their area based on the locations criteria
- Utilized multiple **APIs** and **AXIOS** calls to gather information on local regions to return potential routes
- Stored all data from APIs into **MySQL** and used appropriate queries to pull and push information to the frontend
- Utilized **ReactJS** and **Redux** to create a friendly user experience as well as ease of transition between desktop and mobile views

Student Grade Table (Live | Code)
- A **content management system** that utilized both frontend and backend technologies to store, update, delete, and display student information from the server
- Implemented **Bootstrap** and **JavaScript** to create a user-friendly input table that allowed for displaying of database info
- Used API calls to access data from server and used **MySQL** queries to gather/update information from server

Ancient Greek Connect 4 (Live | Code)
- Created interactive Connect 4 game utilizing **HTML**, **CSS**, and **Javascript** to implement core functionality as well as background theme/styling (Ancient Greece) and animations and sound effects
- Included features in **JavaScript** code that allowed for three player mode as well
- Wrote algorithm that enabled a "Play the Gods" mode which created an experience where the user plays the computer

PROFESSIONAL EXPERIENCE
San Diego Sol   San Diego, CA
Project Manager/Marketer   October 2017 – March 2018
- Coordinated with management regarding the distribution and endorsement of promotional/seasonal deals
- Oversaw completion of projects and directed staff appropriately to complete these tasks in a timely manner
